

A-Class Power Box

Model: Entry

Excellence in Stand Alone Power Systems

**Small Load Power
Where You Need it**

CASE STUDY

Challenge: A POGS client was running a 6kVA diesel generator in order to power a dosage pump which was consuming \$800 per month in diesel.

Solution: Install an A-Class Power Box.

Result: This eliminated the need for the diesel generator.

Benefit: The Client was able to recoup the capital expenditure in less than 6 months and are now saving \$9,600 per annum in operating costs (plus savings in servicing and maintenance).

Applications:

- Irrigation / Valve Controls
- Gate and Electric Fence Power
- Pumps and Aquaculture Aeration
- CCTV Remote Power
- Repeater Stations
- Remote Communications
- Dosage Pumps
- Reticulation
- Monitoring Systems
- Communications Equipment
- Repeater Stations
- Electric Fences

Additional Info:

- Completely pre-wired product
- Rapid Deployment
